

# LM9200 Two-Point Lock

## Grade 1, Multi-Point Locks

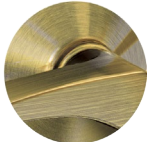

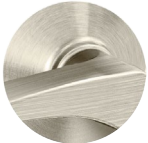

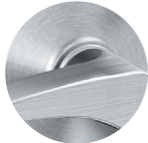

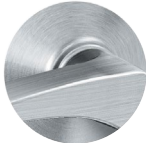

### OVERVIEW

The Schlage® LM9200 lock utilizes latches in the top and bottom of the door connected via concealed vertical cables rather than a latch at the side. Fire-rated to 60 minutes on wood doors and 90 minutes on hollow metal, the LM9200 does not require “backer plates” or metal wraps for fire protection. It is compatible with sectional and escutcheon trim and available without the bottom latch for single point latching.

The LM9200 can easily integrate into any application and suite with other Schlage locks and Von Duprin® exit devices.
