Firmware Release Date	January 2024
Customer Support	For more information or support, visit our document library .

Attention:

This document contains the release notes for AD-Series Over-Network-
Reprogramming (ONR) Firmware Package AD.A.143.

The ONR Firmware Package is intended for our Physical Access Control Software (PACs) providers or Access Control Providers to use for integrating into their System to enable automated online firmware updates.

The following sections describe the release in detail.

Installation and Update Notes:

Allegion recommends keeping all devices up to date with the latest firmware and software. We strive to provide the best products and service for our customers.

Our latest firmware and software releases will allow the customer to get the most from their AD-Series devices.

Who should update?

All customers interested in the following New Feature and Recent Change should update:

New Features:

- **SiK2: Support added for Apple HID NFC and Android HID NFC**
 - Support added to read the credential on Android and iOS Devices
 - Requires a configuration card to Enable
- NOTE:** This feature is only available on SiK2 Readers manufactured after 12/23 with “**Uses HID p/n SEL55100000**” on the label.

Recent Changes:

- **SiK2 Readers: Updated UI for HID Configuration Cards**
 - New response for presenting a Configuration Card that is already set
 - A fast beep is sounded after presentation
 - Success and Failure UI's remain the same

Version Compatibility:

The ONR AD.A.143 Package contains the following individual product firmware versions:
